Magic 5

Every year in October, Amna and her family takes a camping trip. They usually travel to the North of Pakistan because the weather is usually lovely over there. During their camping trip, they share horror stories, light up a bonfire and go hiking in the lush green hiking trail. Amna loves staring at the dazzling stars during the night and they draw constellations in their journals. Amna's brother takes fantastic photographs to store wonderful memories.

Read the passage above and identify the magic 5:
